**Subject:** Health/mortality implications of PM 2.5 and ozone on "seniors"

---

Your assistance in disseminating this information is critical!

**Below is a link to a recently published article in the New England Journal of Medicine regarding the health/mortality implications of PM 2.5 and ozone on "seniors". The study is well designed, extremely large, and statistically significant. It also speaks to the need for improved air quality standards. Please, on behalf of all of us who have labored for many years on the health, safety, and welfare issues of many residents, share this piece with your decision makers at the local, town, state and national levels.**
