

Issue: #63
Date: FEBRUARY 10, 2016

In early February, 2016, the following information was received:
The Institute for Wisconsin's Health has released the *Health Impact of Industrial Sand Mining in Western Wisconsin*. The HIA will also be posted to

the IWHI website: [http://
www.instituteforwihealth.org/hia.html](http://www.instituteforwihealth.org/hia.html)

We hope that you find the report informative and useful in your work. Please do not hesitate to contact me with questions.

Audrey

Audrey Boerner, M.S. | *Health Impact Assessment Specialist*

Institute for Wisconsin's Health, Inc.

Cell: (507) 217-1369

If you don't have time to read the full report, please take a few minutes to read the first few summary pages. This report really leans heavily on being more of an industry focused report but you can come to your own conclusions!

Our attorney friends at Midwest Environmental Advocates have responded with a press release, a Technical Support Letter regarding this report, and a copy of the scientific report released in the November, 2015 issue of the JOURNAL OF ENVIRONMENTAL HEALTH reported by Walters, Jacobson, Kroening, and Dr. Crispin Pierce, all from the University of Wisconsin, Eau Claire, WI

Find the Press Release from MEA

**Find the Journal of Environmental Health
November 15, 2015 Scientific Study (Pierce et.al)**

HERE

It is important to take some time to look over the above documents. If you have comments or questions, please refer them to MEA or to others. Thanks for taking some important time to study the information. Your comments will be greatly appreciated. Additional time will be taken to discuss concerns with the company who put the study together.
