Attend your county's Wisconsin Conservation Congress meeting located in your county on April 11 at 7:00 p.m.

*.....keeping watch on
the industry*

Issue: #72
Date: April 9, 2016

Dear friends,

Thanks to your work introducing and supporting environmental resolutions at last year's Wisconsin Conservation Congress Spring Hearings, two of these resolutions are on the ballot for THIS year's Spring Hearings! Check them out on page 21 of this document. That means that people in EVERY county in the STATE will get to vote on the following questions:

20. Are you in favor of repealing Act 1, the iron mining law from 2013?

21. Are you in favor of the legislature imposing a moratorium on new state permits for frac sand mining and processing until any recommendations that may be developed

***following the completion of the Strategic
Analysis of Industrial Sand Mining can be
implemented?***

This means that we need you AGAIN to come out to this year's spring hearings, which will be held on Monday, April 11 at 7:00 PM in every county of the state, so you can VOTE IN FAVOR of questions 20 and 21. Check [this document](#) for your county's hearing location.

Please forward this far and wide and encourage your friends to turn out for the hearings to vote on these important questions and put the state legislature on notice that the people of Wisconsin will not stand for attacks on our precious environmental heritage!

from Carl Sack
