

MANY PERMIT HEARINGS AND PLANS FOR HEARINGS ARE IN THE WORKS FOR THE DEVELOPMENT OF HEAVY INDUSTRY (SILICA MINING) IN WISCONSIN ! HOW FAR ARE CITIZENS WILLING TO ALLOW THIS INDUSTRY TO GO? WILL THERE BE AN ADDITIONAL EXPLOSION AS THE HYDRAULIC FRACTURING INDUSTRY EXPANDS AROUND THE WORLD?

*.....keeping
watch on the
industry*

**Issue: #92
Date: JULY 17, 2016**

As I read the major story in the Herald Telegram this morning I realized that one major development (a frac sand mine (Pur Frac) and wet plant located in the Town of Cooks Valley and a dry plant and transload loop in the Village of New Auburn at the headwaters of Duncan Creek) were not included in this story. There may be other silica facilities in the making that you know about in your area. Feel free to share these developments!

Here's the story!

"Seeking efficiency, new markets, frac sand mines invest" July 17, 2016

http://chippewa.com/news/local/seeking-efficiency-new-markets-frac-sand-mines-invest/article_fb39a82d-396e-5359-b072-8b69cdab779b.html

Several silica facilities are not open at this time and some haven't been open for months or years. Will the piles of sand containing respirable crystalline silica be forgotten by officials who have been entrusted to protect the health, safety and welfare of their constituents? They are not being monitored and are not being watered down. WHO WILL BE

ULTIMATELY RESPONSIBLE FOR THE DESTRUCTION CAUSED BY THIS INDUSTRY to air and water?
