

Subject: Hi Crush in the Augusta/Bridge Creek Area Has Shut Down

What is the future of frac sand mining in Wisconsin and the Midwest?

*.....keeping watch on
the industry*

Issue: #249
Date: February 7, 2019

Inconsistencies in frac sand mining practices are impacting a couple of counties economically: Eau Claire and Trempealeau. No doubt other counties are also affected as frac sand mines and related operations are shut down for the winter due to changing weather conditions which make some locations almost inoperable. Railroad practices are also

changing to accommodate their needs rather than those of the industry while Texas workers are busy mining brown sand there by some companies that began mining operations here in Wisconsin.
