

VIDEOS PRODUCED BY FRONTLINE AND A PRESENTATION
BY DR. CRISPIN PIERCE, HIS INTERNS AND STUDENTS---SATURDAY AFTERNOON-
MARCH 30, 2019

*.....keeping watch on
the industry*

Issue: # 254
Date: March 22, 2019

**Location: Cozy
Theater
Colfax Municipal
Building
613 Main St.
Colfax, WI
Dunn County**

Saturday, March 30, 2019

2:00-2:45 p.m.- FRONTLINE documentary videos showing advanced pulmonary disease resulting from inhalation of respirable crystalline silica dust (2 shorter videos).

2:45-3:00 p.m.-Break and light refreshments

3:00-4:00 p.m.-Dr. Crispin Pierce, a nationally-recognized expert on frac sand health risks , is a

Professor of Environmental Public Health at the University of Wisconsin-Eau Claire, WI. He, his interns and students, will present information on recent scientific and peer reviewed studies regarding frac sand dust and particularly as they relate to findings in the Bloomer and New Auburn, Wisconsin areas located in Chippewa County. Some of the equipment used in research will also be demonstrated. Free helpful handouts will be available. All people and their families from the Dunn, Chippewa, Barron and other surrounding counties are invited to attend the Public Forum to learn more about the impacts of frac sand dust on health as found and reported to date.

This presentation and others are made available through a grant from the Center for Health, Environment, and Justice, anonymous and other generous donors and the dedicated work of a team of volunteers who want to make a difference. Project: Outreach is designed to reach wide ranges of people through educational opportunities that help create leadership, the value of working together and the development of an awareness of citizen science. We invite your attendance at this Project: Outreach Event.
