Riverland
Energy
Cooperative
Community
Room**

**Frac Sand Mining Health
Research Public Forum**

Join Professor Crispin Pierce and UW-Eau Claire student researchers to discuss ongoing research into the air quality effects of frac sand mining. Hear about research being done right here in western Wisconsin! Then, engage with Public Lab and the Sentinel Program on the pathways people can use in reporting suspected frac sand mining permit violations.

"PEOPLE: ORGANIZING A CONSTITUENCY

The first question an organizer asks is not "What is my issue?" but "Who are my people?" Who is my constituency? A constituency is a group of people who are "standing together" to assert their own goals. Organizing is not only about solving problems. It is about the people with the problem mobilizing their own resources to solve it." From PROJECT WILD: Wi Leadership Development-originally adapted from the works of Marshall Ganz of Harvard University
