

Let's Help Out Our Neighbors in Superior, WI!

*.....keeping watch on
the industry*

Issue:#269
Date: May 25, 2019

Take out a few minutes this weekend to write a note to the PSC to tell them our Superior, WI neighbors do not want a gas plant in their area of the state any more than we want frac sand mines, processing plants, and transload stations here in many counties of Wisconsin. All of us are impacted by the fossil fuel industry by emissions and the creation of unsafe conditions.

Elizabeth Ward and all the folks in Wisconsin's own Sierra Club Chapter are helping out with this campaign and they asked me to ask you to take action!

Dairyland power wants to build a new gas plant in Superior. Would you mind circulating our petition to the PSC asking them to deny the plant? You can find it here:

<https://act.sierraclub.org/actions/National?actionId=AR0171155&id=7010Z000001aOLOQA2>

**This is a very easy petition to complete and you
can write a brief note in your own words so
please take action now.**

Thanks!

Enjoy your weekend! pjp
