

*.....keeping watch on
the industry*

Issue:#283
Date: July 20, 2019

For those of you who live along or near the Mississippi River, it may be important to organize and have additional conversations and actions regarding some of the plans put forth by the Army Corp of Engineers. It is critical to attend meetings and provide input. There seems to be some "testing of the waters" within the materials.

"Areas that show little interest in planning for the future are often better candidates for the dumping of (sometimes toxic) dredged materials. Corps planning also includes who loses land and where their waste goes. Targeted areas experience land seizure through eminent domain."

News Release No. MVP-PA-2019-068**

**Public meetings scheduled for Upper Mississippi
River Master Plan update**

ST. PAUL, Minn. - The U.S. Army Corps of Engineers, St. Paul District, will host public scoping meetings next week, July 22-24, to garner input on Upper Mississippi River Master Plan.

The three meetings are:

Monday, July 22 - 4-7 p.m. -County Administration Building - Veterans Conference Room, 225 N. Beaumont Rd., Prairie du Chien, Wisconsin

Tuesday, July 23 - 4-7 p.m. - Onalaska Library - Meeting Room B, 741 Oak Ave. S, Onalaska, Wisconsin

Wednesday, July 24 - 4-7 p.m. - Red Wing Public Library, 225 East Ave., Red Wing, Minnesota

During the meetings, the public will have the opportunity to provide official comments. The format will be an open house with a few introductory remarks on the purpose and scope of the study.

The St. Paul District is updating the strategic land use and recreation management document that will guide the district's comprehensive management and development of natural, recreational and cultural resources of the Upper

Mississippi River basin for years to come. The master plan, while conceptual in nature, will serve as the vision for both environmental stewardship and recreation as the Corps continues to serve the public in the 21st Century.

Comments concerning the scope of the study may also be submitted to: District Engineer, U.S. Army Corps of Engineers, St. Paul District, ATTN: Regional Planning and Environment Division North, 180 Fifth Street East, St. Paul, Minnesota 55101-1638. Comments can also be submitted via email:
