*.....keeping watch on  
the industry*

Issue:#290

Date: August 26, 2019

**Night View of  
Wisconsin  
Proppants Mine  
located near  
Hixton, WI**

**David Erickson from Erickson Digital Studio,  
Principal and Photographer (Cudahy, WI)  
video-taped the program entitled "Particulate Air  
Quality around Wisconsin Frac Sand Mines" held  
at Skyline Golf Course in Black River Falls, WI on  
August 15, 2019.**

**Dr. Crispin Pierce and his students/interns  
presented their program on air particulates as well  
as the use of Purple Air Monitors and gave an  
update on their latest in scientific research. Other  
tools available for measuring were also  
demonstrated. Many Purple Air Monitors are now**

**in operation in NW Wisconsin collecting data on  
air quality.**

**Here is the link for viewing that program:**

**"The event was very well done, attended, and the audience was deeply engaged!" Dave Erickson**

**Thanks, David, for recording this very critical work for the viewing of others!**

**This program was sponsored by Project Outreach. Please feel free to share this link with others.**

**If you and your group would like to hear Dr. Crispin Pierce and his interns keep you up-to-date on their recent scientific work, please contact Pat at 715-723-6398. Our grant is written to reach as many people as possible throughout the state. We will try to help you organize and plan the day's event. You may qualify for a purple air monitor which will collect data. Why not become a Citizen Scientist?**
