

From the interviews done by Ted Auch, Fraktracker

*.....keeping watch on
the industry*

Issue: #335
Date: July 3, 2020

**Bridge Creek Area
in Eau Claire, WI**

**Hi-Crush Frac
Sand Mine and
Processing**

Christine Yellowthunder is a gifted writer and poet. A former teacher, social worker and tree farmer, she has lived through many experiences and shares her love for the environment and Mother Earth in interesting ways.

You can read more about her experiences at the following website:

<https://www.fractracker.org/2018/10/living-with-silica-sand-mines/>

Included at this site are stories from the Amish

and others who live near the frac sand mine in Bridge Creek and not far away from Christine and others who have experienced impacts to their surroundings including air pollution and water issues, blasting events, and other nuisances they never anticipated when the industry moved into the area. How will reorganization of this industry through Chapter 11 Bankruptcy affect those who live nearby not only in the Eau Claire County area but at other sites where frac sand mining is a now a part of their lives?
