

*.....keeping watch on
the industry*

Issue:#342

Date: August 16, 2020

**Air Quality may be
of concern in
some areas of
Wisconsin**

University of Wisconsin- Eau Claire's Frac Sand Group

**In recent years, the increase of industrial frac sand
facilities in Western Wisconsin has become a growing
public health concern.**

Are you living near a frac sand facility...?

**Are you concerned about the possible affects that living
near a frac operation may have on you or your loved
ones...?**

**We want to help. We install air quality monitors free of
charge.**

Our monitors require just an outside power outlet and a

WiFi connection and cost about 15 cents per week of electricity. We are particularly interested in the areas between Chetek and New Auburn, Tomah/Oakdale, Prairie Farm, Blair, Whitehall, and Arcadia.

If interested, or to refer someone to us please contact:

Dr. Crispin Pierce by email at piercech@uwec.edu

or by phone at **(715) 836-5589**.
